SCHOOL GAMES

SAS Project: A group of Year 6 children are taking part in the Student Aspiration Squad this year. This is a project designed to build relationships with other schools in preparation for transition as well as taking part in a range of new experiences. This term it was orienteering and shelter building at Irchester Country Park. All children were terrific and very grateful for the opportunity.

Sports Leaders: We have had a wealth of volunteering from Years 5 & 6 since September to create and support clubs and activities within our school. In terms of Sport & P.E., some of our Year 6s have now started their Sports Leader roles at lunchtimes, playing and providing activities for EYFS, Years 1 and 2. Another group of Year 6s are supporting the preparation of a Year 4 Gymnastics competition and are providing a great deal of support to this as well as a committed group that continue to plan and lead a Year 3 sports club on Friday lunchtimes. Our value this term is Service and this truly is the epitome of it – thank you!
